trip grading - introductory to moderate

INTRODUCTORY to MODERATE – GRADE 2

The cycling is introductory to moderate (2) grade with daily cycling distances from 40 to 55km (25 to 34mi) on undulating well graded roads and bike paths. The accent is on keeping a relaxed pace to take in all of the attractions, with time to stop and take photos. It is not suitable for children (minimum bike size for height 150cm/5ft). *For safety reasons, we insist that cycle helmets be included as a compulsory item on your equipment list.

the boat

You will generally be accommodated on the “Ana – Maria IV” barge which is a C graded standard category vessel with a capacity of 14 to 20 passengers. The ship was purpose built for the French canals. The relaxed atmosphere aboard makes you feel at home quickly. 7 compact bunk bed cabins are provided with private facilities, whilst 2 cabins have shared facilities and a discount applies. Each cabin has a sliding window and an electrical fan. Bed length is 1.90 x 0.70 meters. The barge is 38 metres long and 5.05 metres wide. Storage space is minimal within the cabins.

THE BARGE EXPERIENCE

During your week long barge and bike experience you will be travelling with a group of cyclists of different ages, nationalities and physical condition. All have a common wish to experience a relaxed and somewhat active holiday, so the cycling speed will always be ‘easy going’.

The barges are not only a means of transportation; you also sleep, eat and relax aboard. The ships are equipped with a dining area, sometimes with a separate bar, a modern galley and a spacious sundeck. From the recreation room there is an excellent view of the surrounding scenery. Depending on the waterways the ships sail between 8 and 15 km per hour.

The crew consists of a captain and a cook, both professionals, who are sometimes assisted by an extra hand. The captain is responsible for the safe transportation of the passengers and their luggage. The chef takes care of your meals.

Loire valley bike & barge

The barge travels with you from port to port and will transport your luggage. The barges range in standard from D to A+ with A+ being the highest level of comfort and facilities. These ratings are based on the barges in the fleet servicing France, Holland, Belgium, Austria, Germany and Romania. We ask that you carefully consider the standard of accommodation you are comfortable with as the range is quite diverse. The following is an indication of what the ratings mean. Please note that none of the barges could be called luxurious.

D- standard barges with shared bathroom facilities. 2 bed bunkbed cabins but also may have multishare cabins.

C - standard barges usually bunk beds in cabins generally with private facilities but often without air conditioning. Cabin sizes are compact with little space to move around comfortably within the cabin.

B - standard plus barge - combination of lower twin beds and bunk beds in the cabins with private facilities which are generally more spacious (although never as spacious as a hotel room).

A and A+ are comfort barges - offer more space per person, some have air-conditioning and the beds are lower berths.

All barges are equipped with double cabins with private facilities (except D category or unless otherwise noted). Cabins on comfort barges are equipped with two level beds instead of bunk beds. The crew on the barge will ensure that your stay aboard is as pleasant as possible.

The trip will be accompanied by an enthusiastic and multilingual tour leader. He/she guides you along the fixed cycle itineraries, or remains on board providing daily briefings (Danube trips), answers your questions, assists with problems and may invite you to accompany him/her on some interesting city walks.

The details of the barge you will be travelling on follows. Note - there is often more than one barge used on different departures of this trip and in that case more than one barge description follows. Barges are also subject to change without notice. Please speak to your travel agent or UTracks consultant who will provide the name of the barge you will be on. This information is also on your tour voucher.

trip organisation

The experience of sailing on a barge is one that should not be missed. During the trip you'll find out that the perspective constantly changes: on a narrow canal the barge seems huge, on the river it is more like a tiny nutshell. From the sundeck you can enjoy the view as it passes by. While the skipper will bring you safely to the next dock or navigate the locks, the cook is preparing a delicious meal. Along the various sailing routes there will be embarkation points where you begin cycling. You are supplied with a packed lunch and bike to explore the backroads, canal routes, villages and national parks. The leader speaks English and one or more other languages and usually cycles with the group. The leader will ask one of the group members to act as a sweep, taking up the rear position in the group. After the cycling is over for the day you return to the barge to relax and enjoy a leisurely dinner. If we are moored in a town there are also opportunities to take in further sights at your leisure. On board there will be a mix of nationalities. This trip is not exclusive to UTracks.

equipment provided

On this trip, whilst vegetarian, diabetic and low-sodium diets can catered for, a supplement is payable for lactose free, gluten free or other special diets. luggage

Aboard your hotel barge your cabin does not have much storage space but this can vary depending on the barge and cabin configurations, e.g. some cabins have small storage cupboards and/or storage space underneath or beside the beds. We recommend to not bring large suitcases on board and to only bring what you will actually need for the trip for your own comfort. If you bring aboard a standard 20kg suitcase this is permitted but may mean less space to move around the cabin. Luggage storage facilities are available at Paris airports or train stations - <http://parisbytrain.com/paris-train-station-and-airport-luggage-storage/> or <http://en.parisinfo.com/practical-paris/practical-fact-sheets/left-luggage-services-in-paris>
